THE ORIGINAL NEAPOLITAN OVEN

Acunto Circolare 130 Model, shipped from Acunto factory

FEATURES

The Acunto Circolare series ovens are hand-built Neapolitan brick ovens which feature a cast steel door opening. The refractory baking floor diameter ranges from 47.5" up to 51", lined with hand-made clay bricks to form a dome. An internal steel and cement structure reinforces the dome and shapes the oven base. A proprietary mixture of Neapolitan sand, volcanic rock and clay form a thick insulation, ensuring heat retention.

The oven is finished with red and white quartz paint and white Carrara marble countertops - the painted surfaces are prepared for tiling. The oven may be special-ordered with removable steel legs, or placed on an existing structure without factory provided legs. Information about the addition of gas burners, custom tiling, or leg options can be found online at www.fierogroup.com.
